

MORE DETAILS ON YOUR VARUNI PIZZA

TO STORE

- Pizzas ship frozen with dry ice
- Do not remove dry ice with bare hands
- Please Note: Pizzas may not be completely frozen when you unpack and this is OK.
- When you receive your pizzas, remove frozen pizzas from box/liner and either: put in freezer (for up to 1 month), refrigerate (for up to 48 hours), or set out to thaw and follow cooking instructions.

TO SERVE

- **STEP 1:** Straight from freezer or thawed (thawed cook time will be quicker)
- **STEP 2:** Place pizza stone or baking sheet on the middle rack of your oven
- **STEP 3:** Pre-heat your oven to 450 degrees Fahrenheit
- **STEP 4:** Once oven is heated, place pizza directly on the rack.
- **STEP 5:** heat for approx. 6 to 8 minutes. If you prefer your pizza crispier, leave in oven longer.
- **STEP 6:** After the pizza is heated to the desired temperature, remove from oven and enjoy!

Pro Tip: After the pizza is done to your liking, try finishing with a good drizzle of extra virgin olive oil and a sprinkle of fresh basil...just like they do at the Pizzeria!

INGREDIENTS:

Margherita: San Marzanos, DOP buffalo mozzarella, Pecorino Romano, EVOO

Oro Bianco: Fresh mozzarella, buffalo ricotta, Pecorino Romano, Taleggio cheese, pancetta, black truffle oil, black pepper

Bastardo: San Marzanos, fresh mozzarella, pepperoni cups, Nduja (Spicy spreadable pork salumi in ragu sauce), Pecorino Romano
